As a technical specialist, Abigal assists patent agents and attorneys in advising technology companies and in-house counsel on IP strategy. She performs patent preparation and prosecution for clients in a variety of technology areas, including wearable health devices, medical devices, biotechnology, electronics, and wireless communications. She also assists with international patent prosecution, including portfolio development and management, as well as competitor tracking.

Life Beyond the Law

Outside of work, Abigail enjoys spending time outdoors and competing around the world as an accomplished triathlete and distance runner.
