Ricardo Fischer is a trusted advisor to leading global companies, partnering with clients across the technology, food and beverage, fashion, energy, and FMCG sectors in the United States, Europe, and Latin America. With a proven track record of helping organizations assess and manage risks throughout the lifecycle of project design, deployment, and roll-out, Ricardo is recognized for his strategic counsel and hands-on approach to complex legal challenges. His representative clients include Grupo Modelo, Inditex, Krispy Kreme, TelevisaUnivision, and Ron Santa Teresa.

Ricardo's core expertise is in intellectual property law, where he provides comprehensive guidance on trademarks, copyrights, unfair competition, advertising, and related claims. He is highly experienced in managing sophisticated litigation and negotiations, ensuring that clients' valuable assets are protected and their business objectives are achieved. His practice also includes advising on and leading teams in commercial agreements, distribution arrangements, acquisitions, divestitures, joint ventures, and cross-border transactions, offering clients seamless support in navigating complex legal landscapes.

Dual qualified in both civil and common law jurisdictions, Ricardo is adept at negotiating and drafting deals across a wide range of legal systems, making him a valuable asset for clients with international operations. His global perspective and deep industry knowledge enable him to deliver tailored solutions that address each client's unique needs.

Ricardo serves as a board member of the Inter-American Association of Intellectual Property (Asipi) and is an active member of the International Trademark Association (INTA) and the European Communities Trade Mark Association (ECTA). He is frequently invited to speak on topics such as trademarks, copyrights, unfair competition, and the evolving intersection of artificial intelligence and IP, reflecting his standing as a thought leader in the field and his consistent recognition by international publications.
