ASSOCIATE

Justine’s practice focuses on intellectual property and patent litigation matters.

Practices

Patent Litigation

Education

Vanderbilt University Law School, JD, 2025

University of Akron, BS, summa cum laude, 2022

Offices

Washington, DC

Phone

202.350.3748

Email

justine.may@afslaw.com

Justine focuses her practice on complex patent litigation and intellectual property matters. She represents clients across a wide range of technical fields, with a particular emphasis on Hatch-Waxman litigation. Her work as a summer associate at ArentFox Schiff and in the San Francisco office of a multinational law firm included conducting legal research on patent law issues, drafting memoranda, preparing expert witnesses, and supporting trial teams during pre-trial and court proceedings.

Justine also brings a technical background in chemical engineering to her practice. During her undergraduate studies, she participated in research on computer-aided molecular design and tutored students in core chemical engineering courses. Through Co-op opportunities, she gained hands-on experience in product development and specialized polymer applications. Her combination of legal training and engineering experience allows her to effectively navigate matters at the intersection of law, science, and technology.

Life Beyond the Law

Outside of work, Justine enjoys live music, playing Euchre, keeping up with the latest superhero media, and cheering on Cleveland sports teams.
